## Papers

1. McBride KA, Ballinger ML, Schlub TE, Young M, Tattersall MHN, Kirk J, Eeles R, Killick E, Walker LG, Shanley S, Thomas DM, Mitchell G. (2017). Psychosocial morbidity in TP53 mutation carriers: is whole-body cancer screening beneficial? Familial Cancer. DOI 10.1007/s10689-016-9964-7 [Epub ahead of print]
2. Fielding S, Rothnie K, Gray N M, Little J, Cruickshank M, Neal K, Walker L G, Whynes D, Cotton S C and Sharp L (in association with the TOMBOLA group) (2016). Psychosocial morbidity in women with abnormal cervical cytology managed by cytological surveillance or initial colposcopy: longitudinal analysis from the TOMBOLA randomised trial. Psychooncology. 2016 Jun 14. doi: 10.1002/pon.4163. [Epub ahead of print]
3. Sharp L, Cotton SC, Cruickshank ME, Gray NM, Neal K, Rothnie K, Thornton AJ, Walker LG, Little J; TOMBOLA Group. (2015). Long-term worries after colposcopy: which women are at increased risk? Women's Health Issues. Jun 4. pii: S1049-3867(15)00042-0. doi: 10.1016/j.whi.2015.04.002. [Epub ahead of print]
4. Eremin J, Cowley G, Walker LG, Murray M, Stovickova M and Eremin O (2015). Women with large (>3 cm) and locally advanced breast cancers (T3, 4, N1, 2, M0) receiving neoadjuvant chemotherapy (NAC: cyclophosphamide, doxorubicin, docetaxel): addition of capecitabine improves 4-year disease-free survival. SpringerPlus, 4, 9. <http://www.springerplus.com/content/4/1/9>
5. Rothnie K, Cotton S C, Fielding S, Gray N M, Little, J, Cruickshank M E, Walker L G, Avis M, Sharp L (2014). Measuring the psychosocial burden in women with low-grade abnormal cervical cytology in the TOMBOLA trial: psychometric properties of the Process and Outcome Specific Measure (POSM). Health and Quality of Life Outcomes, 12:154 <http://www.hqlo.com/content/12/1/154>
6. Cotton SC, Sharp, L, Little J, Gray NM, Walker LG, Whynes DK, Cruickshank ME (2014). A normal colposcopy examination fails to provide psychological reassurance for women who have had low-grade abnormal cervical cytology. Cytopathology, Aug 6. doi: 10.1111/cyt.12173.
7. Sharp L, Cotton S, Little S, Gray NM, Cruickshank M, Smart L, Thornton A, Waugh N, Walker LG, on behalf of the TOMBOLA group (2013). Psychosocial impact of alternative management policies for low-grade cervical abnormalities: results from the TOMBOLA randomised controlled trial. PLoS ONE 10.1371/journal.pone.0080092
8. Sharp L, Cotton S, Cruickshank M, Smart L, Walker L G and Little J, on behalf of the TOMBOLA Group (2013). The unintended consequences of cervical screening: distress in women undergoing cytological surveillance. Journal of Lower Genital Tract Disease, doi: 10.1097/LGT.0b013e31829c97d8
9. Sharma A, Walker L G and Monson J R T (2013). Baseline Quality of Life factors predict long term survival after elective resection for colorectal cancer. International Journal of Surgical Oncology, Volume 2013, Article ID 269510, 6 pages <http://dx.doi.org/10.1155/2013/269510>
10. Walker LG, Eremin J, Aklosius MM, Vassanasiri W, Walker MB, El-Sheemy M, Cowley G, Beer J, Samphao S, Wiseman J, Jibril JA, Valerio D, Clarke DJ, Kamal M, Thorpe GW, Baria K and Eremin O (2011). Effects of quality of life, anti-cancer responses, breast conserving surgery and survival with neoadjuvant docetaxel: a randomised study of sequential weekly versus three-weekly docetaxel following neoadjuvant doxorubicin and cyclophosphamide in women with primary breast cancer. BMC Cancer, 11, 179.
11. Hutton J, Walker LG, Gilbert FJ, Evans DG, Eeles R, Kwan-Lim GE, Thompson D, Pointon LJ, Sharp DM, and Leach MO on behalf of the UK Study Group for MRI Screening in Women at High Risk (MARIBS) (2011). Psychological impact and acceptability of magnetic resonance imaging and X-ray mammography: the MARIBS study. British Journal of Cancer, 104, 578-86.

12. Sharp L, Cotton S, Gray N, Avis M, Russell I, Walker L, Waugh N, Whyne D, Woolley C, Thornton A, Smart L, Cruickshank M and Little J on behalf of the TOMBOLA Group (2011). Long-term psychosocial impact of alternative management policies in women with low-grade abnormal cervical cytology referred for colposcopy: a randomised controlled trial. British Journal of Cancer, 104, 255 - 264.
13. Sharma A, Greenman J, Walker LG, Monson JR (2010). Differences in cytokine levels due to gender in colorectal cancer patients. Cytokine, 50, 91-93.
14. Green VL, Alexandropoulou A, Walker MB, Walker AA, Sharp DM, Walker LG, and Greenman G (2010). Alterations in the Th1/Th2 balance in breast cancer patients using reflexology and scalp Massage. Experimental and Therapeutic Medicine, 1, 97-108.
15. Turnbull LW, Brown SR, Olivier C, Harvey I, Brown J, Drew P, Hanby A, Manca A, Napp V, Sculpher M, Walker LG, Walker S; on behalf of the COMICE Trial Group (2010). Multicentre randomised controlled trial examining the cost-effectiveness of contrast-enhanced high field magnetic resonance imaging in women with primary breast cancer scheduled for wide local excision (COMICE). Health Technology Assessment, 14, 1-182.
16. Sharp DM, Walker MB, Bateman JS, Braid F, Hebblewhite C, Hope T, Lines M, Walker AA, Walker LG (2009). Demographic characteristics of patients using a fully integrated psychosocial support service for cancer patients. BMC Research Notes, Dec 15; 2:253. doi: 10.1186/1756-0500-2-253.
17. Tombola Group (2009). Cytological surveillance compared with immediate referral for colposcopy in management of women with low grade cervical abnormalities: multicentre randomised controlled trial. BMJ, 339:b2546 doi:10.1136/bmj.b2546
18. Sharp DM, Walker MB, Chaturvedi A, Upadhyay S, Hamid A, Walker A, Bateman JS, Braid F, Ellwood K, Hebblewhite C, Hope T, Lines M and Walker LG (2009). A randomised controlled trial of the psychological effects of reflexology in early breast cancer. European Journal of Cancer, doi:10.1016/j.ejca.2009.10.006.
19. Eremin O, Walker M B, Simpson E, Heys S D, Ah-See A K, Hutcheon A W, Ogston K N, Sarkar T K, Segar A, and Walker L G (2009). Immuno-modulatory effects of relaxation training and guided imagery in women with locally advanced breast carcinoma undergoing multimodality treatment: A randomised controlled trial. The Breast, 18, 17-25.
20. Gilbert FJ, Warren RM, Kwan-Lim G, Thompson DJ, Eeles RA, Evans DG, Leach MO; United Kingdom Magnetic Resonance Imaging in Breast Screening (MARIBS) Study Group (2009). Cancers in BRCA1 and BRCA2 carriers and in women at high risk for breast cancer: MR imaging and mammographic features. Radiology, 252, 358-368.
21. Walker, LG. (2009). Psycho-Science: where do we go from here? European Journal of Cancer, 45, Suppl 1, 455-456.
22. Sharma A, Sharp D M, Monson J R T and Walker L G (2008). Patient personality predicts postoperative stay after colorectal cancer resection. Colorectal Disease, 10, 151-156.
23. Sharma A, Sharp D, Walker L G and Monson J R T (2008). Stress and burnout among colorectal surgeons and colorectal nurse specialists working in the NHS. Colorectal Disease 10, 397-406.
24. Sharma A, Sharp D M, Walker L G and Monson J R T (2008). Stress and burnout among colorectal and vascular surgical consultants working in the NHS. Psycho Oncology, 17, 570-576.
25. Sharma A, Sharp DM, Walker LG and Monson JRT (2008). Colorectal MDTs: the team's perspective. Colorectal Disease, 10, 63-68.
26. Thomas R, Williams M, Marshall C, Allerton R and Walker L (2008). Switching to letrozole or exemestane improves hot flushes, mood and quality of life in tamoxifen intolerant women. British Journal of Cancer, 98, 1494-1499.
27. Sharma A, Greenman J, Sharp D M, Walker L G, Monson J R T (2008). Vascular endothelial growth factor and psychosocial factors in colorectal cancer. Psycho-Oncology, 17, 66-73.
28. Sharma, A, Sharp DM, Walker LG and Monson JRT (2007). Predictors of early postoperative quality of life after elective resection for colorectal cancer. Annals of Surgical Oncology, 14, 3435-3442.
29. Sharma A, Walker AA, Sharp DM, Monson JRT and Walker L G (2007). Psychosocial factors and quality of life in colorectal cancer. The Surgeon, 5, 344-354.

30. Walker LG, Walker AA, Walker MB and Sharp DM (2007). Relaxation, visualisation, and hypnotherapy. In Barraclough J. Enhancing Cancer Care: Complementary, Expressive and Supportive Therapies in Oncology. Oxford, Oxford University Press.
31. Iwuagwu O, Stanley P, Platt A, Drew P, Walker L (2006). Effects of bilateral breast reduction on anxiety and depression: Results of a prospective randomised trial. Scandinavian Journal of Plastic Reconstruction Surgery and Hand Surgery, 40, 19-23.
32. Iwuagwu O C, Walker L G, Stanley P W, Hart N B, Platt A J, Drew P J (2006). Randomized clinical trial examining psychosocial and quality of life benefits of bilateral breast reduction surgery. British Journal of Surgery, 93, 291-4.
33. Gray N M, Sharp L, Cotton S C, Masson L F, Little J, Walker L G, Avis M, Philips Z, Russell I and Whynes D (2006). Psychological effects of a low-grade abnormal smear test result: anxiety and associated factors. British Journal of Cancer, 94, 253-262.
34. Klaber Moffett J, Jackson D A, Gardiner E D, Torgerson D J, Coulton S, Eaton S, Mooney, Pickering, C, Green, AJ and Walker L G (2006). Comparison of 'McKenzie' physical therapy treatment vs a brief physiotherapy intervention: A randomised clinical trial of neck pain and back pain patients in primary care. Rheumatology, Oct 24; [Epub ahead of print].
35. Griebisch I, Brown J, Boggis C, Dixon A, Dixon M, Easton D, Eeles R, Evans DG, Gilbert FJ, Hawnaur J, Kessar P, Lakhani SR, Moss SM, Nerurkar A, Padhani AR, Pointon L, Potterton J, Thompson D, Turnbull LW, Walker LG, Warren R, Leach MO for the UK Magnetic Resonance Imaging in Breast Screening (MARIBS) Study Group (2006). Cost-effectiveness of contrast enhanced magnetic resonance imaging versus X-ray mammography of women at a high familial risk of breast cancer. British Journal of Cancer, 95, 801-810.
36. Sharp L, Cotton SC, Alexander L, William S E, Gray N M, Reid JM on behalf of the TOMBOLA group (2006). Reasons for participation and non-participation in a randomised controlled trial: postal questionnaire surveys of women eligible for TOMBOLA (Trial Of Management of Borderline and Other Low-grade Abnormal smears). Clinical Trials, 3, 431-442.
37. MARIBS Study Group (2005) Screening with magnetic resonance imaging and mammography of a UK population at high familial risk of breast cancer: a prospective multicentre cohort study (MARIBS). The Lancet, 365, 1769-1778.
38. Gray N M, Sharp L, Cotton S, Aves M, Philips Z, Russell I, Walker L G, Whynes D, Little J (2005). Developing a questionnaire to measure the psychosocial impact of an abnormal cervical smear result and its subsequent management: the TOMBOLA (Trial Of Management of Borderline and Other Low-grade Abnormal smears) trial. Quality of Life Research, 14, 1553-1562.
39. Walker L G. (2004). Hypnotherapeutic insights and interventions: a cancer odyssey. Contemporary Hypnosis, 21, 35-45.
40. Walker L G (2004). Integrative Tumor Board: recurrent lymphoma. Biopsychosocial perspective. Integrative Cancer Therapies, 3, 250-254.
41. Leach M O, Eeles R A, Turnbull L W, Dixon A K, Brown J, Hoff RJ, Coulthard A, Dixon J M, Easton D F, Evans D G, Gilbert F J, Hawnaur J, Hayes C, Kessar P, Lakhani S, Liney G, Moss S M, Padhani A P, Pointon L J, Sydenham M, Walker L G et al. (2003). The UK national study of magnetic resonance imaging as a method of screening for breast cancer (MARIBS). Journal of Experimental Clinical Cancer Research, 21, 107-14.
